

# TAP·it Demo at TechACCESS of RI

Wednesday, December 7th  
3:30 - 5:30

Introducing TAP·it, Touch Accessible Platform for Interactive Technology. The only assistive, learning center using 'intended touch' to serve each student's special needs.

Come and learn about this exciting interactive learning station!

This large touch screen works with your computer and any software running on it! Use online games, PowerPoint presentations, Boardmaker, websites, or CDs and have all students able to view and interact.

Accessible with hands, pointers, styli, or any object available. The 42" screen can be tilted 0 – 90 degrees and adjusted as low as 7 inches off the floor.

TAP·it provides a touch accessible interactive learning platform that supports shared occupational therapy and academic goals to become a transformative classroom tool for students and educators. It minimizes barriers and maximizes flexibility by adapting to the individual needs of students.

Accessibility solutions for:

- Fine motor delays
- Developmental delays
- Visually challenged
- Hearing impaired

RIDE PDCs available
